

Jan West Biography

I established my design business 31 years ago in Portland. I have been blessed in doing what I love and the business has been very generous to me in many ways. It has been my pleasure to work with many of the top commercial and residential builders in the greater Portland area.

I have worked with fabulous award-winning teams on countless show homes, including The Street of Dreams and The Street of New Beginnings in Portland, the Tour of Homes in Bend, the Parade of Homes in Vancouver, Washington, and various model homes in Palm Springs, Phoenix and Maui.

It is an honor to team up with Linda Seals to open Posh Designs and furnishings in the Hollywood District. Our well-stocked showroom will enable you to see a wide array of furniture and accessories in room-like settings.

We purchase in volume from top manufacturers while working with talented local artists and contractors. I believe that the secret of successful design is to assist in creating spaces that reflect your personality and lifestyle. We strive to design unique, practical interiors that you can live with for many years to come. I look forward to serving you!

Sincerely,

Jan West
